

Dear Sponsors,

Greetings in the name of our Lord Jesus! What a great Lord we are serving. He sustains our whole being; he heals us, he provides for our daily needs and most of all, he

helps us in our weakness.

These past weeks, during and after our camp, we have flu and colds until now actually, we are suffering colds. But nothing can stop us for our Lord Jesus gives us strength always!

Last January 6,7,8, we conducted Youth camp in our church. Purposely to ignite the worship, fellowship, discipleship, ministry and mission of our youth and of course, to win more youth from our community. Before our youth resume to their tiring modules again, we give them an opportunity to be ignited in their passion with God and we let them invite some of their closest friends.

We have 70 registered campers including the youth who stand as their staffs. Their activities were designed to ignite deeper fellowship, discipleship and of course care for each

other. Evening services were designed for worship and empowerment. Some attendees were from the Teenage Pregnancy seminars that we have these past months.

They all enjoyed the activities, worship and especially the Words of God. During the last night, my son

Vinzel their camp director asked for some who wants to share what they learned and unforgettable experienced during the camp. One attendee, invited by one our youth, unchurch, shared his testimony. We all surprised what we heard, because he's so thankful that he was invited and joined the camp. He's broken from a broken family.

He witnessed how his mother tries to kill herself. But during the camp, one of our evening services, after I shared the word, I asked them to surrender their lives and accept Jesus in their hearts. He said, he surrendered his life and everything to the Lord. After the camp, two consecutive Sundays now that he is attending our church.

Some unchurch youth also said that they found new nice friends during the camp. And also Sundays now that they are attending our church and enjoying their new friends in the church. A new

saying I've learned, "People are not looking for a friendly church, they are looking for a friend in the church."

## PRAYER REQUEST:

Please include these young.

Satan tries to destroy them by destroying their families, make them get into, bad per groups, by getting them in drugs and different vices and into teenage pregnancies. Let's pray that the connections they experienced and found among our youth in the will be sustained by the help of

the Holy Spirit.

Thank You and God bless you more.

## ANOTHER PRAYER REQUEST:

Please help us pray for the completion of our church project; for tiles, paintings, front fix glasses, main door glasses and sliding doors inside.

In Christ,  
Ludy and family
